April 7, 2025

Dear President Fenner and Members of the City Council:

Today, I present a balanced budget for the City of Burton's fiscal year 2025-26, which is the sixth balanced budget that I have proposed as Mayor. With all the unforeseen anomalies that have been put in our way, we continue to move forward. My Administration still understands the importance of implementing our vision to move our city forward and continuing to build on changes I promised to our residents. This budget continues to show our city's great progress.

I am very proud to be proposing a balanced budget for the sixth straight year. This budget takes into account the understanding that inflation is continuing and potentially reaching an all-time high. Also, being mindful due to the uncertainty of Federal funding that may not be available due to the drastic cuts to departments. Since being elected Mayor, my staff and I really work hard and go in depth to make sure our city is continuing to run lean and effective by looking into any inefficiencies and finding cost savings that will better our city financially. We have continued these cost-saving measures and as a result, this budget grows our General Fund balance for the sixth year in a row. These savings were achieved in part by having experienced and knowledgeable department heads helping maintain high efficiencies in every department within the city. The financial approach that I have taken has been proven effective in rebuilding the financial stability of the city. My position will continue to remain steadfast on financial growth to better our city.

With all the adversities that have been continually going on day to day, our city has great things happening. This is all possible by us working together and being transparent through every process. Working together with our great ideas and putting them into action will accomplish great things that will help fast track our city's needs. Our city still faces challenges, but with our proactive approach over the last five years, we are trending in the right financial direction. This is continuing with our OPEB and MERS liability. Our MERS pension is continually trending in the positive with current assumptions because of the proactive measures taken with employee's contracts and paying the additional one million dollars to address the unfunded liability. The additional payment helps our pension offset the downward spiral of the stock market today. I am also very proud of the progress made towards our unfunded OPEB liability. With us working together, this will be the sixth consecutive budget that we will be paying an additional amount towards our OPEB unfunded liability. With us being aggressive towards our unfunded liability in both the MERS and OPEB, we have continued to keep our city out of the criteria of having to file a corrective action plan required by the State Treasury. These are major financial improvements that I will stay on top of to help reassure that we can continue to foresee any financial adjustments to be made.

This administration knows the importance of growth and we are in constant conversation with different developers and businesses trying to encourage growth for our city. Our residential growth with new homes being built has helped us maintain financial stability without raising costs to our taxpayers. We have fully developed subdivisions that were at a standstill since the housing crisis in 2008. Again, without growth within our city, the city will become stagnant, and we will have no choice but to go to the current taxpayers and ask for increases. Growth equals sustainable and affordable living in our city. With the new homes being built within our city, the city's population will grow, making our census numbers higher which in turn will equal more federal and state funding for our city.

With the cost-saving measures that my administration has implemented, we are accomplishing many construction projects. For our major road projects, we are constructing Genesee Rd north of Davison Rd to our City limits, Court St between Center Rd and Genesee Rd and Commerce Rd. I am also very proud that within this proposed budget are additional road projects that would never qualify for TIP. I have included Genesee Rd from Atherton to Court St, and Covert Rd from Davison to City limits, along with many more improvements to our infrastructure including deteriorating drains under main roads. We all know that local streets are financially hard to keep up with due to lack of funding received for local streets, but the financial position that my administration continues to strive for has allowed our city to make great strides towards improving our local streets. We have taken blight very seriously and will continue to move on the elimination of blight within our city. Even though we have repeat offenders, our dedication and perseverance is known and is helping to keep our city marketable.

I am very excited with the continued financial success of our city and how it has proven to developers and investors that we are committed to growth and a better community that all can come to live, work and enjoy. With improvements being made throughout the city, it has helped us attract new businesses. To name a few we now have Harbor Freight, Ross Dress for Less, Michaels and soon to be opening Burlington Coat Factory and Five Below.

The city is seeing progress in our property values. The lack of homes for sale has caused all our home values to increase. The constitutional limitations that are in place stop municipalities from recovering lost revenue too quickly and is spread out over twenty years. In 2008, every municipality seen a significant decrease in their revenue due to the falling housing market. Seeing the increases in our property values is another testament of how our city is making great strides to be able to continue growth. It is important that we all as elected leaders keep in touch with our elected officials from the County, State and Federal levels to help assure that our city is getting every dollar possible to help the continuing growth of our city.

When I was elected in 2019, I made a solemn commitment to the residents and the city council that I would do everything in my power to turn this city around and make it financially secure without putting more of a financial burden on our taxpayers. Thanks to the success of my financial plan and working together with city council we have been able to accomplish more projects during my time in office than ever before in the history of our city. This has all been possible because of my great staff and the employees of this city. They bought into my vision and trusted that us working together would get the city back on the right track. The employees of this city have worked hard picking up the workload from positions that have not been filled, with the promise from myself, that once our city was financially stable, I would begin filling them positions again. Not only have we been running short

staffed in numerous departments, we have a wave of retirements that will be coming up here within the next two years.

My Administration has worked tirelessly and made sure that all unnecessary spending was cut and the savings have been used for the improvement and growth of our city. I have said since the beginning, sustainability with limited employees would be the only question. This question now has to be answered. We have numerous positions within our city that are coming to the end of career life. Meaning we have numerous high-level positions within my administration that are preparing to retire. Now is the time that we must start succession planning to ensure we have trained, experienced and dedicated replacements to fill these positions here in the near future. I am very proud that my proposed budget has these positions budgeted so we are prepared for the future and have trained employees ready to keep our progress moving forward when these retirements take place.

As Mayor, I have made it a top priority to fully examine the city's financial position in every area of the budget. Being a taxpayer, I understand the financial struggles that some of us may have to endure and that's why I want City Council to be completely confident that we have explored and implemented all cost saving measures. Doing so will help keep our taxes low while still providing the level and quality of service Burton residents have come to expect. I am also very proud that working with City Council, we were able to reduce water rates and still maintain a positive balance. We continue to monitor the progress of our water bills and funds to stay informed so our city will not have to endure massive increases like we saw in 2019.

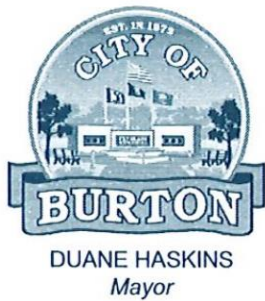

Lastly, I would like to thank our controller, Brandy Ruth, for spending numerous hours preparing and implementing my vision in preparing this proposed budget. I would also like to thank all my Charter Five and department heads for their diligence and leadership, as well as the entire workforce for their input.

In closing, I want to thank our citizens for putting their trust in me to build a balanced budget that will bring progress and prosperity to all sectors of our community. I am confident the FY 2025-26 proposed budget reflects the shared vision and commitment of City Council, my Administration and most importantly, the residents of our great city.

Sincerely,

Duane Haskins
Mayor

City of Burton

April 7, 2025

To: Burton City Council
From: The Controller's Office
Subject: 2025-2026 Proposed Budget

Honorable City Council Members,

Today, Mayor Haskins and the Controller's office submit the Mayor's proposed budget totaling \$51,294,907 for Fiscal Year July 1, 2025, through June 30, 2026 (see the attachment for a summary by fund).

Please find herein an estimate of the figures for the current year and a proposed budget for the upcoming year. The administration used a combination of methods to develop this budget. Many variables can cause changes to what we have proposed. This is why the city uses budget amendments during the year to handle unforeseen events or newly developed plans. The updates are minimal due to the current economic conditions.

While there are still challenges, the City has focused and worked diligently to face the challenge of providing excellence in service with limited resources. Our challenges consist of: Continued legacy costs for retiree health and pension, Infrastructure improvements for roads, bridges, and sewer systems, and Internal infrastructure improvements and repairs for City properties and buildings.

The FY 2025-26 budget includes funding for 95 full-time positions. The budget also includes funding the part-time and/or contract positions of Senior Center Driver, Building Inspector, Code Enforcer, 7 Council members, and 36 part-time firefighters.

In November 2013, registered voters and the city passed a 6.5 mill police millage. The primary goals of the millage were to get the police department back up to 36 officers, to free up funds in the general fund for match money for roads, to pay down pension and OPEB liabilities, add key personnel, and fund various other infrastructure projects. We have consistently budgeted for 36 officers however, due to the volatility of the market demand for officers our FTE's have continually fluctuated. This has resulted in a higher carryover fund balance in the Police fund. Due to this the general operating fund has significantly decreased the transfer for 2025-26. It is anticipated that the transfer will increase next year and return to a normal supporting transfer once staffing has stabilized. The 36 officers, includes one FANG officer position and one GAIN officer position, for which we will receive a 60 percent cost reimbursement from the county. Those positions are included in the 95 full-time position count.

Salary and benefits for staff who perform work for several departments have been allocated to that respective department by one of the following: number of staff, percent of budget, estimated time, or

another reasonable methodology depending on the position. These salaries, labeled as “Shared Salaries” in the budget, have had minimal changes for this year. The MERS cost allocation has been updated for the 2025-2026 budget to more evenly distribute costs to all departments, based on their respective union MERS group.

Our taxable value increased by 7.5% percent for the 2026 tax year. This increase will generate approximately \$172,608 more in tax revenue for the general fund, \$237,347 for the police fund, and \$36,483 for the fire fund. The city is subject to a Headlee millage reduction this year. The current estimations are based upon preliminary calculations, using the Headlee reduction for 2025. A final determination will be made in late May or early June when we receive the tax computations from Genesee County. The city hit the low mark in taxable value during the real estate market decline in 2014-15 and the recovery had been incredibly slow. Despite the slow economy and global pandemic construction has picked up in the past couple of years and has continued with stable growth. The taxable value chart included in the chart section after the index shows the taxable value history for the past 11 years. In 2015 real property taxable value was \$530,782,982. This year our taxable value grew to \$857,669,350. The FY 2025-2026 budget assumes a general fund tax levy rate of 4.000 mills. If we were to levy the full millage rate of 4.6458 mills, the general fund would have an additional \$553,883 to fund projects.

Salaries have been budgeted according to current employee bargaining agreements for POLC, COLC, AFSME, SEIU, and Teamster units. Retirement expenditures have been budgeted at the rates provided by MERS. OPEB expenditures were previously budgeted with an increased \$300,000 contribution. For the fourth year, we are budgeting the \$300,000 contribution plus an additional \$100,000 towards the OPEB liability. The additional \$1 million that the City Council has approved for submission to MERS each December, since 2014, except for 2017-18 where \$976,000 was contributed, has been included in the budget. The City has maintained a point in the OPEB funding to no longer require a Corrective Action Plan.

The City’s last audit included information required by the Governmental Accounting Standards Board (GASB) concerning pension and other post-employment benefits (OPEB). As you know, the City was required for the tenth year to show the entire liability for the pension plan on the government-wide financial statements. Likewise, the enterprise funds (water and sewer) were required to reflect the net pension liability on the management-level financial statements. The City was required to report the liability for retiree health OPEB for the eighth time.

Our customer base of water and sewage usage is increasing due to new construction. Sewer infrastructure is now being addressed with the Clean Water State Revolving Fund (CWSRF). These low-interest loan options are greatly needed to fund infrastructure improvements. Phase four of the sanitary sewer collection system CWSRF was completed in early 2024. Currently, we have completed three phases budget for 9.7 million dollars, all of which have come in significantly under budget at 6.2 million dollars, and we have one more phase planned over the next three years. These projects will ensure residents have the adequate infrastructure to meet their needs.

Community Development Block Grant (CDBG) funding in the amount \$20,121 for Senior Center Operations has been included in the FY 2025-2026 budget.

The self-insurance fund accounts for the health insurance costs for employees and retirees of the City with charges to each department for its respective cost. Health insurance rates have been budgeted at

an increase of approximately 12% to the City.

The information technology (IT) fund consists of the expenditures related to the IT Director and technician, supplies, equipment, contractual services, and depreciation. The fund allocates costs across City departments as an internal services fund. By centralizing the IT function, cost savings have been realized by buying standardized products and purchasing in precise quantities. This change allows us to fully evaluate our total costs of the IT Department and also allows for a fixed rate for all other departments. Upgrades to the IT infrastructure and security are on a multi-year improvement schedule to keep the city current. These increases are reflected in the expenditures for the 2024-2025 budget year.

In the 2024-2025 fiscal year, we had two new GASB implementation, GASB 100 Accounting Changes and Error Corrections & 101 Compensated Absences.

These budgeted numbers were compiled utilizing the most recent projections of revenues and expenditures available.

We welcome the opportunity to answer your questions and look forward to working with you over the coming weeks. Thank you to the department staff for their significant contributions to the development of this document.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read "Brandy K. Ruth". The signature is fluid and cursive, with the first name "Brandy" being more prominent and the last name "Ruth" following in a similar style.

Tax Millage

July 1, 2025 - June 30, 2026

General Operating	4.000 mills	(maximum allowable millage levy is 4.6872)
Police Levies	8.4425 mills	
Fire Levy	.9947 mills	
Property Tax Administration Fee	1%	

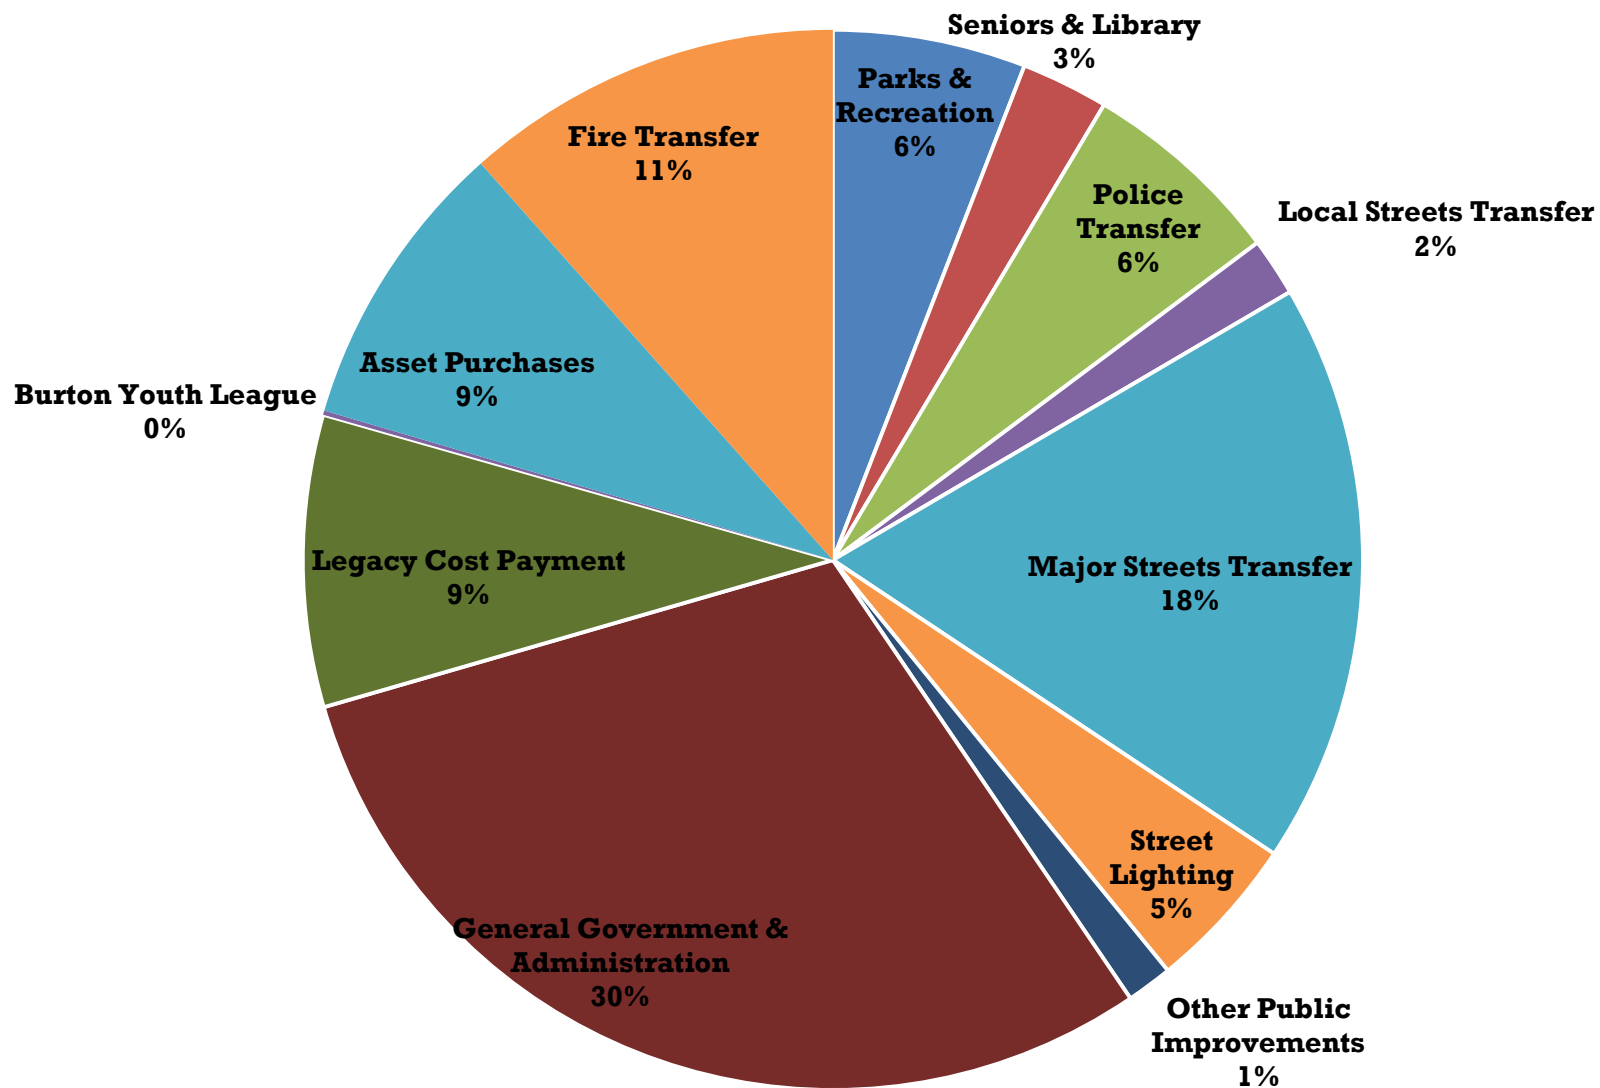

The general operating millage, extra voted police levies and extra voted fire levy millage rates are separated into two categories in conformance with PA 5 of 1982, as amended, commonly referred to as truth in taxation. At this time, based on the facts available, the change in anticipated state equalized value for this year will be the result of new construction and/or local market adjustments. Further, based upon the facts available, the change in taxable value will reflect physical changes to property, changes in taxable status and/or application of the constitutionally allowable inflation rate adjustment. Final determination of equalized and taxable valuations will be made by the end of May 2024. Provisions for truth in budgeting and any "Headlee" considerations, as required, will be finalized during the first week in June for proper implementation of the summer 2024 tax bills.

*Millage rates include a Headlee Rollback from last year. This year is expected to be more.
